OVER THE YEARS

Commentaries based on **cataloging over 300 sales** and **collecting since 1928.**

The prices prevailing in recent months for Pioneer & Territorial Gold have forced us to revise our ideas for values. Many of the more "common" pieces are now in the $2,000 to $5,000 range with the scarcer ones in the $10,000 to $25,000 bracket. It is not unusual now to see prices over $100,000 for the truly rare specimens. One of our colleagues even ventured the opinion that some pieces "could conceivably be in the Half Million Dollar class in the near future." A year or so ago this statement might have received a chuckle or skeptical acknowledgement but today we are forced to admit that it is possible ––– and with continued inflation, maybe probable.

We recently sold an accumulation of Fractional California Gold $¼, $½, $1 to a dealer; it immediately changed hands several times at increased values. Evidently, Fractional California Gold are also in the "Boom" stage.

A constant search for specimens to improve or add to the CLIFFORD-KAGIN COLLECTION of PIONEER & TERRITORIAL GOLD (on display at the Old San Francisco Mint) has enabled us to improve two and possibly three specimens. Duplicates we have acquired have been placed in some of the better collections. Anyone having coins for sale or information regarding the series not appearing in Adams' book (1913) are urged to contact Don Kagin who is working on a new comprehensive book on PIONEER & TERRITORIAL GOLD, including GOLD INGOTS and any other forms of gold or gold and mixed metal ingots used in transactions in what is today the United States. Proper acknowledgement will be given for new information.

At the request of a number of collectors, we have prepared a listing of the CLIFFORD-KAGIN PIONEER & TERRITORIAL GOLD COLLECTION and now have it available upon request (see bid sheet – page 7).

Last year the "Boom" was in gold coins, now a "Boom" seems to be taking place in Currency, particularly those in New, Choice and Superb condition. The majority of notes in our recent sales have gone to dealers (who can recognize bargains). We have long felt that Currency was underpriced in relation to coins but now a correction in values seems to be occuring.

While some gold coins have stabilized in value, silver, and recently, copper coins have started to advance. Every series seems to eventually "have its day."

EARLY HALF DOLLARS

652. **1795 FLOWING HAIR, rare "DOUBLE DATE"** (or "Recut Date") Fine obverse with reverse Fine to Very Fine (uneven wear). Catalogs $525 in only Fine; this choicer specimen worth closer to 650.00.

653. 1795 Normal date but **ERROR DIE** with **A over E in "STATES"**, O-113 variety, Very Fine (outer portions Extremely Fine but center not as sharp being closer to about Very Fine). **RARE (Rarity 4). Superior to Overton Plate coin.** The "commonest" 1795 V.F. catalogs $535; this rare variety worth over 750.00.

654. 1801 HERALDIC EAGLE, Extremely Fine with traces of luster, O-101 variety. Rare and desirable early die state. Catalogs $750 for "common" 1801; this one worth closer to 1,000.00.

655. 1803 Large 3, Large rev. Stars (O-103), About Uncirculated with much luster. With Unc. ones at $3,750 (T-Q), this choice specimen should bring around 1,000.00.

656. 1805 OVER 4 (underlying 4 quite plain) **About Uncirculated,** rare early die state with stars, although with typical weakness, are sharper than usually seen, Almost Full Luster, lovely iridescent patina. **Undoubtedly "CONDITION-CENSUS" for this rare date** (Scott states: "Unverified in Unc."). We believe the $3,700 listed in T-Q for Unc. is "theoretical" as we cannot find any record for a strictly uncirculated specimen. Easily worth upwards of 1,500.00.

657. **1806 OVER 5, VERY RARE MAJOR VARIETY with underlying 5 visible in ball of 6,** (95% of "1806 Over 5" have only right tip of 5 visible at right tip of 6) Overton 104a described in Beistle as "1806 OVER 6". **RARITY 6!** Very Fine to Extremely Fine (uneven wear). The rarity of this major variety is caused by the early die failure resulting in crown of head and point of bust (& opposite stars and cloud of rx.) not being struck up. **EXCESSIVELY RARE SO CHOICE!** An important "type" deserving of separate listing. Easily worth over 1,000.00.

658. **1807 Last year of type, Virtually Uncirculated, barest friction, bluish, practically Full Luster. Tele-Quotes Unc. $4,000; this worth close to half.**

659. **1807 BUST LEFT, SMALL STARS, PROOFLIKE WITH HIGH WIRE EDGE & FULL STARS! Glittering bluish full prooflike surface both sides.** The typical weakness in center of this variety is less apparant than on any other specimen we can recall seeing. It was sold some years ago by F.K. Saab as "BRILLIANT PROOF. GEM"; more recently (1970) it changed hands at $6,000.00. We believe this **remarkable specimen** will now bring upwards of $10,000.00; perhaps closer to 15,000.00.

660. 1811, 18, 22, 24, 25, 27, 28, 30, 32, 33 Average Extremely Fine, lot 10.

663. 1817 **"AMERJCA"** variety (O-103a), sharp struck with partial wire edge and full stars, appears to be Uncirculated except for the faint "cabinet friction" on center obverse. **RARITY 4** (compared to Rarity 3 for 181.7 variety). Easily worth 200.00.

664. 1818 Virtually Uncirculated, barest friction, golden mint luster. 150.00

665. 1819 Virtually Uncirculated, barest friction, iridescent mint luster. 150.00

667. 1820 Large Wide Date, Knob 2, Uncirculated except for faint rub on curl, golden patina. SCARCE Catalogs $400 Unc.; this worth 250.00.

668. **1822 OVER 1** (traces of 1 visible inside curl of 2) (O-101 variety), rub on top curl removes this from the strictly Uncirculated class. Rare early die state with practically all stars full. **Rare, but particularly so in this choice state of preservation!** The $500 catalog value unc. does not reflect its true rarity; well worth over 500.00.

669. **1823 BROKEN 3** (O-101 variety), **Uncirculated bluish golden,** usual strike with some stars and curl not full (and eagle's claws). **Much rarer than "patched 3" which is only Rarity 3 compared to RARITY 5 for "Broken 3".** Well worth 750.00.

676. 1836 About Uncirculated, quite sharp with luster. 125.00

1836 REEDED EDGE HALF DOLLAR – PROOFLIKE GEM

677. **1836 Reeded Edge, GLITTERING WIRE EDGE SHARP STRUCK PROOF-LIKE GEM!** Acquired many years ago from B. Max Mehle as a "PROOF". We carefully examined this before judging it "PROOFLIKE" rather than "PROOF" (it has some but not all the criteria generally associated with a proof). **The ONLY 1200 STRUCK places it among the lowest coinages of all the U.S. silver (not just the halves).** It is difficult to know what such a remarkable specimen might now bring. We did note a "PROOF" (it had some flaws) last year at $10,000.00. This **choicer specimen** now worth?

678. 1837 Similar (No. 677) "type" with "50 CENTS", virtually Uncirculated, barest friction, attractive deep blue patina. Tele-Quotes Unc. $900; this worth about half.

679. 1838 HALF DOL., Extremely Fine. Catalogs 125.00.

680. 1839 BUST, Virtually Uncirculated, barest friction, pinpoint nick, deep golden patina. Tele-Quotes Unc. $800; this worth close to half.

681. **1839-O About Uncirculated, quite sharp with luster.** T-Q Unc. $1,500; this worth about 500.00.

LIBERTY SEATED HALF DOLLARS

682. 1839 NO DRAPERY, Very Fine & Sharp obverse, Extremely Fine rev. **Scarce "type."** 225.00

683. 1839 DRAPERY, Extremely Fine & Sharp, traces of luster. 90.00

684. **1842-O Large Date, GLITTERING BLUISH GOLDEN PROOF SURFACE & RAISED EDGE BOTH SIDES, SHARP STRUCK!** Probably a **"PRESENTATION PIECE"** of the first year of this type (Lg Date, Lg Letters, Lg Eagle). We believe the regular dies, after being in use (the top hair strands & breasts of liberty; lower left feathers of eagle not full) were cleaned-up and used to strike this specimen on a selected polished planchet. In this era of "Exceptional Prices For Exceptional Coins", it is difficult to "guesstimate" what this **remarkable specimen** might bring; surely well into four figures.

685. 1843-O About Uncirculated, some luster. 125.00

686. 1843 About Uncirculated, quite sharp with luster. 150.00

687. 1844 Uncirculated with deep bluish golden patina, Sharp Struck. Tele-Quotes 350.00.

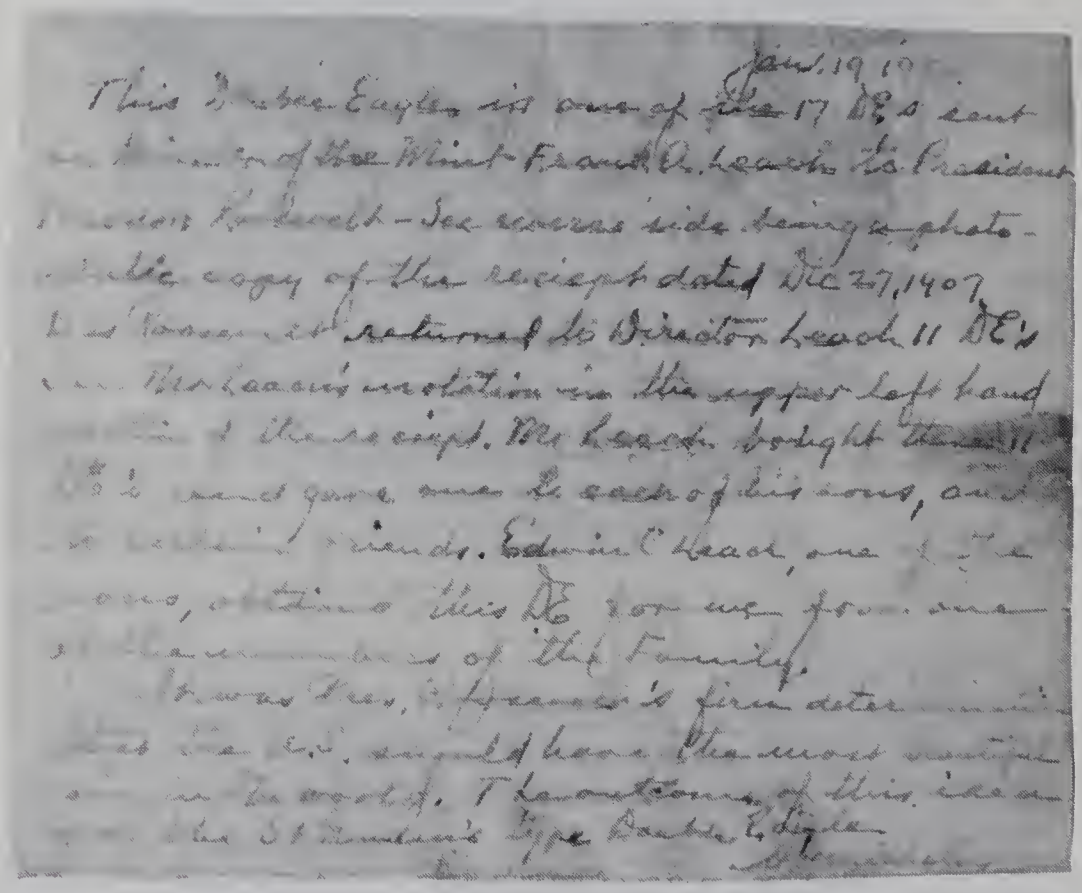
UNITED STATES DOUBLE EAGLE
ROMAN NUMERALS
1907 PROOF

WITH LETTER FROM THE WHITE HOUSE

FOR THE CONNOISSEUR OF NUMISMATICS AND ART
THE MOST DESIRABLE UNITED STATES COIN

1371. **1907 ROMAN DATE MATTE PROOF.** **PRISTINE!** Mounted in plastic with the following hand written letter:



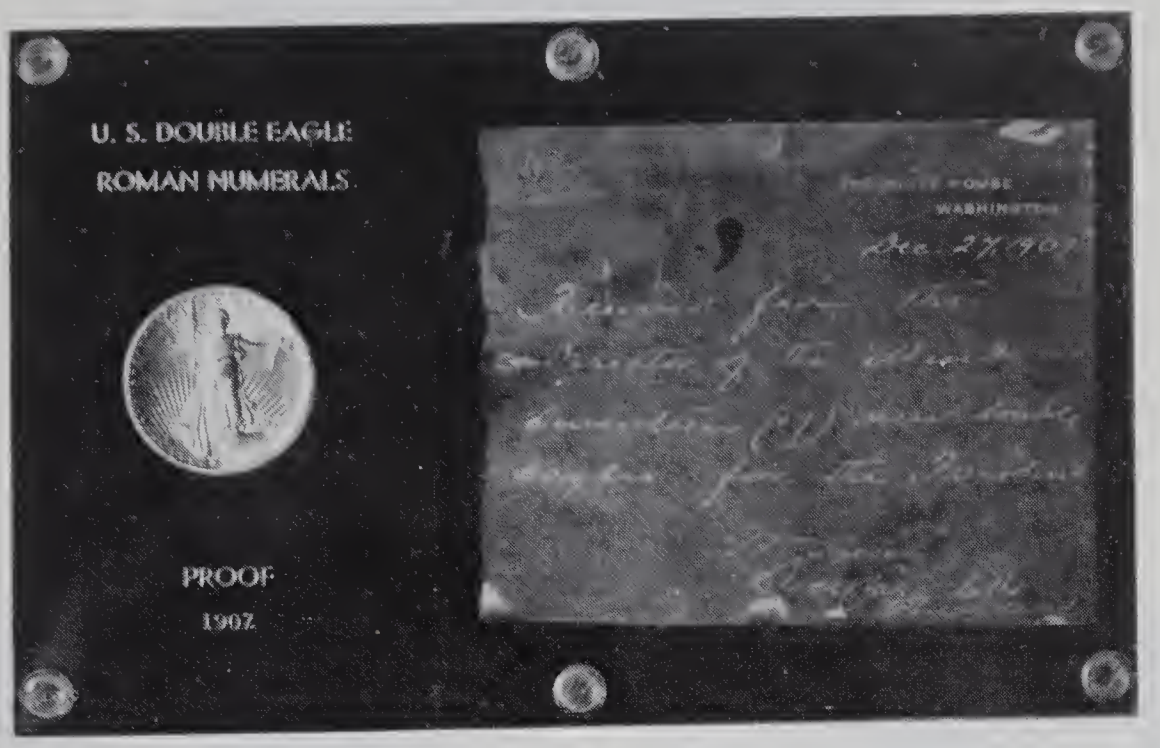
Jan. 19, 1950. This Double Eagle is one of the 17 DE's sent by Director of the Mint Frank A Leach to President Theodore Roosevelt – See reverse side being a a photostatic copy of the receipt dated Dec 27, 1907. Pres Roosevelt returned to Director Leach 11 DE's. See Mr. Leach's notation in the upper left hand portion of the receipt. Mr. Leach bought these 11 DE's and gave one to each of his sons, and to certain friends. Edwin C. Leach, one of the sons, obtained this DE for me from one of the members of the Family.

It was Pres. Roosevelt's firm determination that the U.S. should have the most beautiful coins in the world. The outcome of this idea was the St. Gauden's type Double Eagles.

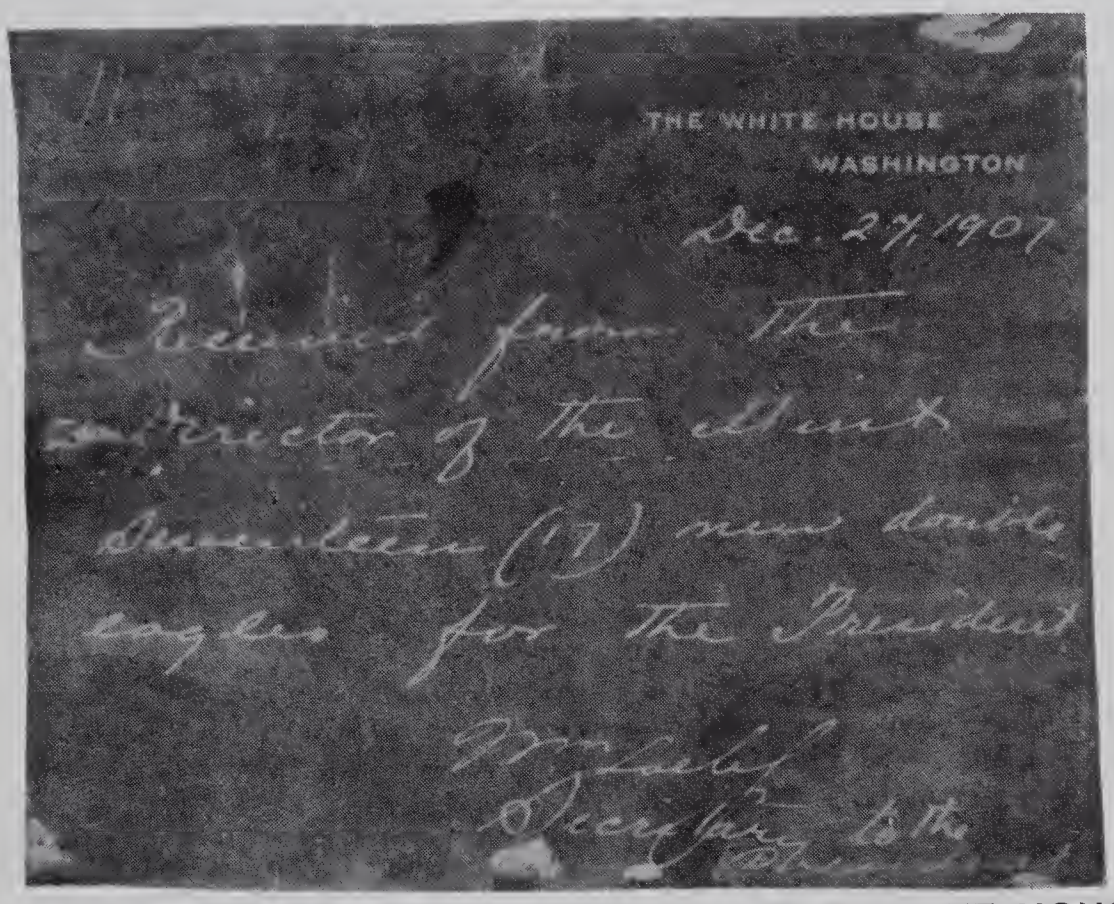
A. Michels

Authenticated as Proof by Walter Breen. Proofs are **Rarity 7** (including those impounded in the Smithsonian and museums) but the letter accompanying this particular specimen elevates this piece to a class by itself!

1907 ROMAN DATE DOUBLE EAGLE PROOF FROM THE WHITE HOUSE, DEC. 27, 1907



Photostatic copy of pen receipt on obverse:



11 D.E. Returned

Jan 3 08

Received from the Director of the Mint
Seventeen (17) new double
eagles for the President.

THE WHITE HOUSE
WASHINGTON

Dec 27, 1907

Wm. Loelel

Secretary to the
President

Walter Breen's INSTITUTE OF NUMISMATIC AUTHENTICATORS two page certificate dated 1971 accompanies the coin. It establishes the distinction between **proof** and **uncirculated** and traces the ten known proofs. The detailed description ties this certificate to this particular proof.

Theodore Roosevelt was the first president since George Washington to take a deep personal interest in our coinage. He believed that our country should issue coins which would compare in beauty and relief with those of Ancient Greece. He commissioned **Augustus St. Gaudens** to undertake this project, thereby breaking the precedent of using only the designs of the regular mint officials.

Because President Roosevelt considered it blasphemous to place the name of God on a coin, the motto IN GOD WE TRUST was omitted from the coins first issued in 1907. However, this caused such a public furor, that when Congress passed a bill in 1908 directing that the motto **IN GOD WE TRUST** "shall hereafter be inscribed upon all such gold and silver coins of said denominations as heretofore", he withdrew his objections and directed that the motto be placed on the coins.

We cannot think of a more desirable coin for the following reasons:

1. **The MOST BEAUTIFUL U.S. COIN in the HIGHEST STATE OF PRESERVATION in the Specila MATTE PROOF FINISH!**
2. **PRESTIGIOUS PEDIGREE:** Director of the Mint to THE PRESIDENT OF THE U.S., to the Director of the Mint, to his son, and now owned by William T. Watson of West Virginia, who acquired it a year ago at $50,000.00.
3. **EXCESSIVELY RARE IN PROOF BUT THIS PRISTINE PROOF PRESENTATION PIECE IS IN A CLASS BY ITSELF, GIVING IT THE HIGHEST RARITY!**

The new owner should receive a double dividend: Pride of possession and increase in value (especially now, during our BiCentennial celebration when our heritage and history are such dominating forces in our economy). With less rare gold proofs bringing $50,000 to $150,000 (1875 $3 May, 1974), we cannot help but feel this highly coveted beauty will continue to advance in value.

1372. CENT 1857 Flying Eagle, Brilliant golden Uncirculated, Wire Edge, CHOICE!

1373. CENT 1909-S, V.D.B. Nice Very Fine. Scarce and popular.

1378. HALF DIME 1829 Uncirculated golden.

1382. DOLLAR 1928 Virtually Uncirculated, barest friction. Low coinage.

1921 "SPECIMEN STRIKE" PEACE $1

1383. **1921 BRILLIANT UNCIRCULATED, SHARP STRUCK WITH RAISED EDGE BOTH SIDES, smooth "satin-finish" surface, GEM! The sharpest struck specimen we can recall seeing, with the edge thicker than normally seen.** While it does not resemble the Matte Proof of this year, it does show evidence of **"Special Care"** in its striking. We do not know the reason for this "Specimen Strike" but do know it is **RARE** and **HIGHLY DESIRABLE** in this remarkable condition.

1760 VOCE POPULI HALFPENNY UNCIRCULATED

1384. **1760 VOCE POPULI Halfpenny, variety with blundered letters in POPULI, brown Uncirculated!** A glass reveals faint marks on point of bust. **VERY RARE IN THIS REMARKABLE STATE OF PRESERVATION.** Far superior to specimen pictured in Guidebook. We don't know if the $1,500 on envelope refers to owner's cost or to his valuation of the piece.
